

# Persona C HR

High Resolution – fluoroscopy C-arm  
with 20 kW of power

Exceptional detail and image quality. Advanced high resolution, high sensitivity, low dose detector technology. 30 frames per second imaging, 32", 4k surgeon's console, active cooling.

Designed for light easy navigation and imaging across a broad range of surgical procedures.

Automated low dose organ programs. DSA digital subtraction, vascular package for angiography. Excellent solution for orthopedic, digestive, neuro, vascular, peripheral, abdominal, cerebral, cardiac procedures and more...

## Product Highlights

- Streamlined lightweight design
- Automated low dose organ programs
- Dual-Phase Angiography, Road-mapping, Digital Subtraction Angiography (DSA) and Radiography
- Low dose, high resolution, 30 cm CsI/IGZO detector
- 32", 4k Surgeon's console touchscreen
- 30 FPS pulsed fluoroscopy
- 3 acquisition modes, low dose, high quality & snapshot
- 3 mode Active Cooling lowers tube heat as much as 50%

## Category exclusive features

- Dual lasers at tube & detector
- Stay in place arm positioning
- Easy lift front wheels
- 81 cm largest opening in its class
- Only system w/+65° to -95° orbital rotation
- Lightest, up to 200 lbs. lighter
- Only battery free system

\*Persona C HR will be made available in the U.S. upon completion of regulatory requirements
